[www.jacobs.com/capabilities/nuclear-lifecycle](www.jacobs.com/capabilities/nuclear-lifecycle)

**JCS Nuclear Solutions**
JCS Nuclear Solutions are working safely and remotely - business as usual. Please find our statement here: [JCS Covid-19 Statement](#). We would be delighted to set up a video call or screen share, or a simple phone call. Stay safe everyone.

**L2 Business Consulting Limited**
L2 is continuing to offer our services as normal with all of our team working remotely from home. We are not undertaking business travel to client sites currently unless it is deemed critical (e.g. Critical National Infrastructure) and then only when the risk is deemed acceptable. We can deliver any urgent training on-line via Skype or Teams if needed. Please contact us via the usual mobile numbers, emails or using the main business telephone number 0191 213 1407 or our general email address sales@l2businessconsulting.com.

**Market Cross**
08:15 – 16:30, Monday to Friday (Working from home), 01929 401040
MIRION TECHNOLOGIES

NUVIA

We intend to remain open, so long as we are well and incoming work levels justify it. We are open for calibration, servicing and maintenance but it is very much dependent upon being able to obtain spares. [www.nuvia.com](http://www.nuvia.com).

PHE

PHE offices remain open. All services remain operational but with some adjustment and/or at a reduced level. All usual contact routes remain open. Please read [full statement](mailto:https://www.gov.uk/health-professional-professional-covid-19-guidance).

Pycko Scientific Limited

We’d liked to confirm that Pycko Scientific office is open during normal office hours - With a skeleton crew still receiving & shipping instruments & providing advice when requested. To contact please call 01476401992 or email Bill on [Bill@Pycko.co.uk](mailto:Bill@Pycko.co.uk).

Radman Associates

Radman Associates continues to provide our monitor calibration service, only at a reduced service level. Instruments shall be returned within 2 weeks rather than our customary 5 working days. We’re using an alternative delivery address so please call our office telephone number before sending any monitors. 01625 576000, [www.radman.co.uk](http://www.radman.co.uk).

Stephen Green and Associates

Although our offices are closed, we’re working from home. Our phones will redirect you to the RPA on call - 01362 822066.
Contact us via [https://www.stephengreenandassociates.co.uk/contact-us/](https://www.stephengreenandassociates.co.uk/contact-us/) and see our latest news [https://www.stephengreenandassociates.co.uk/covid-19/](https://www.stephengreenandassociates.co.uk/covid-19/).

Topspeed Couriers Ltd

Topspeed is continuing to operate their courier services for the transport of radioactive material and other dangerous goods. To discuss requirements contact them: 0800 856 2464, [info@topspeedcouriers.co.uk](mailto:info@topspeedcouriers.co.uk), [www.topspeedcouriers.co.uk](http://www.topspeedcouriers.co.uk).

Tracerco

Tracerco are still open and operating supplying radiation detection equipment and our calibration/repair lab is open for all types of radiation monitoring equipment. Our Radiochemistry lab is also open for analysis. [http://www.tracerco.com/](http://www.tracerco.com/).
