

HOUSE DEMOCRATS CANNOT BE TRUSTED

The sham impeachment may be over, but the partisan and far-left agenda being driven by House Democrats will continue as long as they remain in power.

Speaker Pelosi and her radical members – who are all operating at the whims of their socialist base – cannot be trusted with authority. They have made a mockery of our Constitution, our values, and their oaths of office.

Even before undertaking this impeachment effort, which they wanted to do since the day this President was inaugurated, Democrats' radical and extreme agenda was already threatening the freedoms and liberties that make our country exceptional. Do not forget:

- *They have endorsed a plan to eliminate private health insurance, strip 158 million people of their care, and institute a \$32 trillion single payer scheme.*
- *They have proposed a plan that would abolish all forms of affordable energy, outlaw airplanes, cars, and even cows, all for a cost of \$93 trillion.*
- *They have embraced socialism, with their leading candidate for President and most prominent members of Congress extolling more government control, more spending, and less freedom.*
- *They have called for open borders, abolishing ICE, decriminalizing illegal border crossings, and for providing free health care for illegal immigrants.*
- *They have refused to stand up for Israel, our closest ally in the Middle East, and have enabled anti-Semitic rhetoric, comments, and behavior within their party.*
- *They have refused to protect the rights of the unborn, and endorsed the heinous practice of infanticide by rejecting – over 80 times – legislation that would allow life-saving care for babies born alive.*
- *They have voted in favor of a plan that would create taxpayer funded campaigns, and prevent Americans from expressing their First Amendment rights.*
- *They have backed legislation that would infringe on the Second Amendment rights of law-abiding Americans without cracking down on criminals or stem the tide of mass violence.*
- *They have attacked our brave law enforcement officials and demonized the brave work they do to protect all of us.*
- *They have voted in favor of bills that would embolden our enemies, weaken America on the global stage, and endanger our troops serving abroad.*

The Democrats have proven that they cannot be trusted with authority. The American people will hold them accountable in November.
