

Altair

Symposium

NEXT GENERATION SIMULATION-DRIVEN DESIGN

Tuesday, March 10th, 2020

Bergeron Centre for Engineering Excellence Building - Room 125

Lassonde School of Engineering

York University, Toronto, ON M3J 2S5

Agenda

08:30 – 09:00	Registration & Welcoming Coffee
09:00 – 09:30	Welcome by York University By Prof Alex Czekanski, Associate Professor – York University
09:30 – 10:00	Introducing Altair Simulation-Driven Design By Hassan Arif, Account Manager – Altair
10:00 – 10:15	Networking Break
10:15 – 11:15	Altair SimSolid – the Magic in Simulation World By Ross Myher, Engineering Manager – Altair
11:15 – 12:15	Mining Truck Strength Analysis with OptiStruct By Yu Shen, Sr. Manager of Technical Services – Hitachi Construction Truck Manufacturing Ltd.
12:15 – 13:30	Lunch Break
13:30 – 14:30	Optimization in OptiStruct: Overview with Applications By Mohamed Abdelhamid, Teaching Assistant – York University
14:30 – 15:30	Next-Generation Design for Additive Manufacturing By Greg Delbridge, Technical Manager – Altair
15:30 – 16:00	Altair Future Events & Closing By Hassan Arif, Account Manager – Altair
16:00	End of Symposium
