

# Welcome

## **Market update in response to Covid-19**

Fresh and locally produced food is an essential element of our wellbeing. We recognise the value of this and therefore the market will continue to operate as long as possible.

We understand that the coronavirus is a very serious threat to our health. Managing the risks associated with the transmission of the virus means you will see some changes.

We are maximising space between stalls to ensure that you have room to avoid close contact with other people. The tables and children's area have not been set up. Face painter James has reluctantly stopped this service.

## **We have introduced new rules which we ask you to follow please:**

- If you are unwell or at risk please do NOT enter our Market. Your cooperation is paramount.
- Hand sanitisers are available at the entrance ways and in the arena itself. These are for your use, to help protect you from any possible contamination.
- Please DO NOT handle produce at the vendor's stall. The vendor will package your request to meet with your needs.
- Food samples will NOT be available.
- No Keep Cups. Unfortunately, the circumstances dictate consumption from vendors' cups.
- You are most welcome to consume prepared food in the company of family and close friends. However due to the Government limits on crowd gatherings, we must ask that you go about your business and leave promptly when you have finished.
- We have staff and volunteers available to assist with any questions.
- If you entered the Park by motor vehicle, we ask that you depart through the Maxwell Road gate. Follow the signs out past the administration block to the north of the Park.

THANK YOU.

Your cooperation is critical to our ability to keep our Market open during this crisis.
