WELL-CHILD CARE IS IMPORTANT, EVEN DURING A PANDEMIC

Because of COVID-19, many children have missed well-child visits and other important care, like immunization. Delaying vaccines puts your child at risk for severe illness. Getting well-child care is not only safe, but also vital to your child’s health.

Your family’s safety is our number one priority.

Our office is open and ready to provide:

- Immunizations
- Sick Visits
- Mental Health Services
- Physical Exams

Have questions? Call us to schedule an appointment and hear about precautions our office is taking to keep your family safe during visits.
