**Beta B-PLUS (TMA) Nickel Free Wire**

- Safe for nickel sensitive patients
- Force levels between nickel titanium and stainless steel
- Carefully processed to reduce any breakage during formation or activation
- Friction characteristics enhanced by using highly polished wire from rollers
- Optional hygienic individually wrapped wires (see website)

**Sale:** $44.80 $64.00

10 pack

---

**Copper NiTi Archwire**

- Copper NiTi 35ºC wires consist of nickel, titanium, copper and chromium
- The addition of copper to the alloy enhances the thermal-reactive properties of the wire
- The wires’ activated temperature is close to mouth temperature and is soft in room temperature to facilitate engagement
- It falls within a very efficient force range when used with the large round or rectangular sizes
- Optional hygienic individually wrapped wires (see website)

**Sale:** $48.23 $68.90
