Petition Presidential Candidates to Make Affordable Childcare a Priority This 2020 Election

Sign the petition to urge our Presidential Candidates to make affordable childcare a platform issue.

Every day, millions of working parents struggle with keeping careers on track while raising children. If work is truly the path toward economic security and upward mobility, policies that allow parents to succeed in the workforce, and do right by their children, are vital to the future success of our country. The cost of early childhood education and care is often disproportionate to the monthly budgets of middle and low-income families, forcing them to make tough choices, like leaving the workforce or taking on substantial childcare debt. This deteriorates an already precarious standard of living. Parents need cost relief now.

Our Presidential candidates have indicated that they are not hearing that child care affordability is a crisis. We are working to change that and by adding your voice you are a part of the collective megaphone advocating for the importance of accessible, affordable, quality child care. We will feature the names at the Democratic and Republican convention.

Care for All Children and your signature can influence the government to take a two-generation approach to their policies and investments—an approach that is both feasible and sustainable for working parents and preparing our youngest learners the opportunity to learn, grow, and succeed. By signing the petition you are agreeing to raise your voice as a parent, grandparent, aunt, uncle, neighbor, employer, child care provider, as someone who benefits and loses in society when we do not stand up for young children, hardworking families, and our economy.

They won’t be able to ignore millions of parents. Sign this petition now and join us in calling for cost relief.

Became a strong supporter of raising up the childcare affordability crisis and voting for a Presidential candidate that commits to addressing early childhood education and care inequities today!!
