Public Closure

Starting 3/16/2020

Closures in effect 7 days a week, 24 hours a day

Forest closures are actively enforced by Benton County Sheriff's Office. Harvest operations are extremely dangerous—please respect posted forest closures for your safety and the safety of the harvest crews.

310 Dunn CC & Dunn CFIRP 5+ Harvest Information

Approximate Closure Duration: 6-8 weeks **Closed Roads:** 310, portions of 300, 440 Rd
Closed Trails: None **Haul Routes:** 300 Rd

310 Dunn CC

Size: 10.1 ac **Harvest Method:** Cable logging
Prescription: Clear-cut w/ structural retention (13.8 trees/acre retained). Replanting planned for 2021 or 2022
Reason for Harvest: Revenue generation to support Research Forests operations and student learning in the CoF.
Stand Age: 77
Additional Considerations: Appx 13.8 trees/acre will be left in the stand, exceeding requirements of Oregon Forest Practices Act (FPA).
Consistent w/ Forest Plan? Yes

Dunn CFIRP 5+

Size: 10 ac **Harvest Method:** Cable logging
Prescription: Group selection (several small openings totaling 10 acres). Replanting planned for 2021 or 2022
Reason for Harvest: Long-term College of Forestry Integrated Research Project (CFIRP) studies the ecological benefits, economic viability, and social impacts of "group selection," an alternative Douglas-fir management strategy that creates several small openings rather than one larger clear-cut. This will be the first entry into this stand in support of the study.
Stand Age: 110-150
Additional Considerations: older legacy oaks and conifers will be retained in the stand. Appx. 19.8 trees/acre will be left in the stand, exceeding requirements of the Oregon Forest Practices Act (FPA).
Consistent w/ Forest Plan? Yes
