

Health & wellbeing across the curriculum

Maths	English	Physics	History/ Geography	PE/Drama
<p>Operations (Starter): 4.2% of men and 7.9% of women suffered domestic abuse in the UK in 2018. How many people were affected overall in that year?</p>	<p>Modern Prose & Drama: Choose a pivotal moment in a text & rewrite it from another point of view. Do you think multiple perspectives are important? Why? Discuss.</p>	<p>Physics – Pressure: Draw a diagram to show how pressure can affect people as well as objects. Compare your diagrams as a class. In which situations is this effect clearest?</p>	<p>History – Henry VIII: Write a simple guide to how Henry VIII made it possible to marry six different women, despite the laws at the time. Was he good at finding loopholes or cruel?</p>	<p>PE – Trust Exercise (Starter): Work in pairs or small groups to develop a quick activity or movement that could help to build a positive relationship between people.</p>
<p>Collecting, Recording & Representing Data: Survey your peers about how likely they are to report suspicious behaviour. How will you present this data so it has an impact?</p>	<p>Shakespeare: Choose an infamous relationship from one of the plays. Analyse it: does one person dominate? Are there any warning signs? Do you think it's a healthy relationship?</p>	<p>Biology – Nerves & Hormones: What happens to our bodies when we get angry? Can you measure this within the body in any way? What might the long-term physical effects of frequent anger be?</p>	<p>Geography – Places: Choose a country on a map. How many people there meet their partners online? Once you've found out, plot it on a class graph. Where is online dating success highest?</p>	<p>Drama – Roleplay: In pairs, each choose a character from a film or play that you know well who has experienced some trouble in their life. What would happen if the two met? Act out their first meeting.</p>
