

Make a Kite

The weather is getting nicer and we are sure to have several sunny days coming up. Why not make a kite with your child to fly on a sunny, windy day?

You can use all sorts of different materials found around your home to make a kite. Allow your child to get creative! Here are some basic material suggestions to get you started:

- Paper, fabric, paper bags
- String, ribbon, yarn, streamers
- Popsicle sticks, sticks from outside, straws, pencils

Try making different kinds of kites to test out which one can fly the highest. Don't forget to take pictures of your kites to share with us!
