CRG, Inc is committed to supporting the safety of first responders during the COVID-19 pandemic. We recognize the challenge public safety agencies face in limiting officer and citizen exposure. CRG Inc. is offering the “911eye” technology at no cost for the next thirty days to assist public safety agencies in managing the COVID-19 pandemic.

System Features
Through 911eye, public safety agencies have the ability to securely receive live videos, photos, and text messages from the public which will enable them to:

- Maintain a high level of service while protecting first responders and citizens from potential exposure in accordance with CDC call guidelines.
- Securely document incidents in a CJIS-compliant environment eliminating the need for an in-person response.
- Provide situational awareness to ensure proper resource allocation and minimize unnecessary exposure to personnel.

The technology is easy-to-use and is compatible with existing systems. Onboarding, training, implementation can be accomplished in under one hour through remote set-up and instruction.
