Become a LANDSCALE INNOVATOR

Pilot a New Approach to Assess and Credibly Communicate Your Impact on Sustainability at Landscape Scale

LANDSCALE can help you better understand, measure, and communicate progress and trends at landscape level.

The complete LandScale toolkit (coming soon) includes:

- An assessment framework to track key indicators of sustainability
- An easy to use data and reporting platform
- Guidelines for verifying results and making credible claims
Why Use LandScale?

- It’s impartial, so diverse stakeholders can use it as a common framework to set shared targets and measure progress.
- It’s ready to use, so you can conduct an assessment without developing a bespoke monitoring and evaluation framework.
- It measures impact across all critical dimensions of sustainability, helping you gain wide buy-in for your initiative.
- It allows you to share verifiable stories of impact via an online platform to strengthen investment and support for your work.

How Can You Benefit?

- Conduct a baseline assessment using v0.2 of the landscape assessment framework.
- Join a global community of like-minded innovators driving improvements at scale.
- Be one of the first featured on the LandScale platform and build support for your work.
- Provide valuable feedback and help shape LandScale to meet your needs.
- Receive guidance from the LandScale team throughout the process.

Timeline

- MAY 1, 2020 Deadline to apply
- JUNE, 2020 LandScale Innovators selected
- Q3 2020 Onboarding and training
- Q4 2020 LandScale assessments begin
- Q1 2021 Selected results featured on the platform (beta version)
- 2021 AND BEYOND Continue to share learnings, receive support and innovate with us

Resources

Selection as a LandScale Innovator is not associated with funding from LandScale. The lead organization will take responsibility for obtaining the necessary resources to conduct the assessment.

The resources needed to conduct an assessment will vary depending on the size and complexity of the landscape, however our current pilots estimate 40 – 60 person days. Other potential costs may be associated with data collection.

Become an Early Tester of LandScale

Conveners of multi-stakeholder landscape initiatives, companies, donors and financial institutions interested in assessing, communicating and driving improvements in landscape sustainability can benefit from becoming early testers of LandScale.
APPLY NOW

We’re looking for committed applicants from diverse geographies and sectors. If you’re interested in becoming one of our LandScale Innovators, apply online by May 1st, 2020.
