

# Tour de Broads Spring Weekend

**Following our announcement to postpone The Southwold Roubaix, we are sad to say that Tour de Broads – Spring, due to be held over the weekend of 16-17 May will also be postponed until later in the year.**

Thank you for your understanding and patience during this challenging time. Rest assured we will contact you with alternative dates as soon as we can and we look forward to a time in the not-so-distant future when we can once more come together to celebrate everything we love about cycling.

All entries have been suspended until a new date is announced and we would like to reassure you that your entries will remain valid for the new date.

In line with our T&C's, if you are unable to make the rescheduled date we will transfer your entry to another event of an equal or lesser value.

We will update you on any changes to future events as decisions are made. As always, we will continue to be guided by the Government and Public Health England as the situation continues to evolve.

Keeping fit, healthy and active at this moment in time is even more important than ever and while you are able to, we hope you can enjoy getting out on your bike. Please do so responsibly and follow guidance on social distancing.

*British Cycling are urging all cyclists to only ride on routes you know well, that are close to home and that are well within your ability level - this is a time for calm recreation, not for challenging yourself.*

*Now, more than ever, we must ride our bikes responsibly - that means only going out on our own, or with people we live with, and keeping two metres apart from anyone we meet, stopping and waiting for people to pass when necessary. We're doing this to protect ourselves and others, and to make it safe for everyone to ride.*

*If the cycling community continues to behave responsibly then we all hope to keep the roads and trails open for use, so that we can all manage our health during the coming weeks and months.*

*The last thing any of us want is to be a burden on our already stretched emergency services.*

We know that this is the socially responsible decision to make and trust that you will understand and continue to support us in these uncertain times.
