The SCDNR Marine Resources Division seeks outgoing, motivated individuals to participate in a paid summer marine science and outreach internship. These interns will be provided with hands-on experience in communication, laboratory and field data collection practices, and environmental education. They will have the ability to work with marketing, biological research, event planning, and teaching.

Applicants should be recent graduates or working towards a degree in communication, education, biology, wildlife or fisheries management or closely related fields.

To apply, send a cover letter, resume, and SCDNR job application to Julie Binz at MarineEducation@dnr.sc.gov.

Applicants must have a valid driver’s license, good driving record, and the ability to clearly and effectively communicate and work independently with little supervision. Applicants must be able to lift 50 lbs and tolerate outdoor working conditions. Any additional wildlife experience is welcome.
