Energy Efficiency

Sustainable Energy and Climate Planning

AREAM through C-Track 50, an European Union H2020 project, is supporting the regional municipalities to update their 2020 Sustainable Energy Action Plan (SEAP) to Sustainable Energy and Climate Action Plan (SECAP), for 2030.

The interns will be involved in the energy balance and emission inventory projections for 2030, and in the evaluation of the impact of some actions to be included in the SECAP 2030, namely contributions to RES, EE and CO2 targets.

The Interns are required to comply with 7-hour daily timetable, Monday to Friday. It is recommended that the interns bring a laptop.
