

Placement description

y e n e s i s

Energy footprint of buildings Municipality of Kos

The participant will contribute to the recording of the energy footprint of the buildings of the Municipality of Kos. In collaboration with the Department of Electromechanical Projects and Signaling of the Technical Services Department, she/he will record the energy data of the buildings of the Municipality of Kos and reports will be made on energy saving in the building shell. She/he will also contribute, through the recording and subsequent proposals, to the compilation of the required energy performance certificates.
