Sustainable tourism

Puhka Kihnus OÜ

Puhka Kihnus OÜ is a family-run business where they do all tourism related activities. The Sadama Accomodation is located in the Soviet-era fish-smoking building. One can find out more about all the services we offer to our guests on our website www.puhkakihnus.ee. In the same building, in a slightly separate section, there is also a "Kihnu fisherman" (found on facebook @kihnukalur), the place where we process all the fish caught. Our internship activities consist of daily housekeeping, catering, meal service, site maintenance, guest interaction, and more. We would be happy to involve brave young people in fish processing as well. During the days when the accommodation is quieter, we do several things at home (cooking, gardening etc.) We are a genuine example of a business where some of the skills of all members of the family are put into practice. Everything that we do on our daily bases is considered as "sustainable" for most of our guests.
