

# Placement description

y e n e s i s

Electric mobility, research, data collection  
and treatment

Sustainable Energy and Climate Planning

AREAM aims to study the importance tourists give to sustainable mobility solutions in their perception of quality of the tourism destination. The interns will participate in the elaboration of the surveys content and will carry them out to 500 tourists in 5 hotel units of different categories, including in the sample tourists from different origins and age groups. The study aims to obtain information to assess the importance of investing in electric vehicles by local rental car companies, and in electric charging stations by hotel units.

The Intern is required to comply with a 7-hour daily timetable, Monday to Friday. It is recommended that the interns bring a laptop.
