R&D on marine transport

TalTech, Estonian Maritime Academy of Kuressaare,
Small craft competence centre

Small Craft Competence Centre (SCC) is a research and development unit of the Tallinn University of Technology in Estonia located at Saaremaa island:

SCC's main research field is sustainable marine engineering, namely, vessel hydrodynamics – resistance, seakeeping, loads and manoeuvrability;

SCC provides small craft design, model testing and materials laboratory services.

SCC was launched in 2011. The SCC building in the heart of Kuressaare, on Saaremaa island, was opened in 2014.

The intern could experiment/ design a device (and, if there is time, also building it). Conducting an experiment or development, or doing some research related to sustainable marine transportation.
