adventure. learn. explore.

summer
Summit proudly offers academic camps, themed camps, and healthy life & recreation camps for eight weeks during the summer for K-6th grade students. Recently graduated 6th graders may also enroll. Summit’s camps are known in the community for their high-quality programming, with more local partnerships and STREAM-based themes than ever before! As always, all Summit camps are taught by a certified teacher and/or expert in their field; and classes are kept small to provide an optimum learning environment.

Summer camp registration opens to ALL on March 1, 2020.

This year all Summit classes are coded as seen above. At Summit we continue to build and add upon S.T.E.A.M (Science, Technology, Engineering, Arts, Math) by adding the academic focus that we do best – Reading & Writing. The letters from the acronym S.T.R.E.A.M. can be found next to each class title in order to help clarify the academic focus of each class. Summit’s summer program is unique as we present academic rich content in both an accessible, hands-on, and fun way! We hope you enjoy your summer at Summit!
academic camps
ONLY $125/week! | $500/session

close the gap in reading & writing
4-weeks | 8:30 a.m. – 11:30 a.m. | k – 6th grade

Session 1: June 8 – July 3
Take your reading, writing, and comprehension skills to the next level! Join our intensive and focused program for students in need of a boost in reading and writing, critical thinking, and creativity in language arts.

Teachers are trained in the Orton-Gillingham method, a high-quality instructional approach intended primarily for students who struggle with reading, spelling, and writing. Stay engaged over the summer and have fun!

Session 2: July 6 – July 31

math basics
4-weeks | 8:30 a.m. – 11:30 a.m. | k – 6th grade
Struggling with basic math computation?
This class is designed to help close the gap to success with addition, subtraction, multiplication, and division using manipulatives to strengthen concepts. This camp is appropriate for students with remedial math skills.

math enrichment (1st – 6th only)
4-weeks | 8:30 a.m. – 11:30 a.m.
Are you a math whiz who just can’t get enough?
Then this camp is for you! We’ll determine your understanding of math and challenge you to keep growing during the summer break. This camp is for students who desire to stay engaged mathematically over the summer and have fun too!

Note: 1st – 6th grades | split by grade level: 1st – 3rd & 4th – 6th

themed camps
kindergarten–6th grade | $125/camp unless otherwise noted

• Monday-Friday AM & PM camps with a unique theme each week.
• Sign up for AM & PM classes in the same week and register for FREE recess & lunch supervision! Please bring a sack lunch.
• AM Camps: 8:30-11:30 | PM Camps: 12:30-3:30

healthy life & recreation
kindergarten–6th grade | $225/week—all-day | 8:30 a.m.-3:30 p.m.

$125/week—half-days | 8:30 –11:30 am OR 12:30-3:30 pm
Crafts, games, field trips, exercise, and swimming are all centered on weekly themes that tie into lifelong learning experiences. Fees may be assessed for field trips and activities periodically. Campers will swim at Noelridge Aquatic Center on M-W-F afternoons, weather permitting. Swim passes are not provided through Summit Schools. Swim passes must be purchased through the C.R. Rec. Dept. Details will be announced closer to the date.

Please provide your student(s) with a sack lunch (if attending full-day session), sunscreen, and a water bottle each day.

Fun-filled days with organized recreation!
Summit proudly offers academic camps, themed camps, and healthy life & recreation camps for eight weeks during the summer for students entering K-6th grade. Summit’s camps are known in the community for their high-quality programming, with more local partnerships and STREAM-based themes than ever before! Summit camps are kept small to provide an optimum learning environment.

Students who are registered for a morning and afternoon camp within the same week are invited to stay for FREE supervised lunch and recess between 11:30 a.m.-12:30 p.m. Students should bring a sack lunch that does not require heating or cooling. Please note that lunch is not provided and students must be registered for both a morning and afternoon camp.

Register for the complimentary “Lunch Session” those weeks during online registration. If you don’t register for this service, this option will not be available for your child(ren).

**before & after camp care**

Before and after camp extended day care for students is available through pre-purchase only. This is also considered a “Session Option” (listed within the session) of Online Registration.

**All extended day care MUST be pre-purchased.**

- **AM Extended Day Care** 7:15-8:30 a.m.: $30.00/week
- **PM Extended Day Care** 3:30-5:30 p.m.: $50.00/week
- **AM & PM Extended Day Care** 7:15-8:30 a.m. & 3:30-5:30 p.m.: $75/week
morning camps  
**(8:30 a.m. – 11:30 a.m.)**

- **art in nature**  
  June 8 – 12  
  Rain or shine, this art camp will bring nature's beauty to life through messy but fun projects, including painting, bubble foam, shadow art, and more. If you love nature and art, this camp is for you!

- **how lego® became lego®**  
  June 15 – 19  
  Do you wonder where your favorite building block came from? What and when was the first set sold? Enjoy this spin on a traditional LEGO® class! Come ready to build!

- **storytelling**  
  June 22 – 26  
  Do you remember hearing about when your parents had to walk to school uphill both ways in snow 15’ high? What about that fish your uncle caught that keeps getting longer and longer each time he talks about it? Storytelling has always been part of the human experience. Discover the art of telling a story in this exciting class.

- **galaxy camp**  
  June 29 – July 3  
  3, 2, 1 blast off to a galaxy far, far away to learn about Earth and the amazing solar system. Discover all things galactic such as comets, planets, shooting stars, rockets and more. Learn about flight, the adventures of space travel, and participate in a rocket launch!

- **welcome to the jungle**  
  July 6 – 10  
  Grab your binoculars, kids! We are here to learn about and recreate the multiple layers of the jungle. Discover jungle animals and their habitats, and get a taste of different foods you may find if you visit the rainforest!

- **mini mad scientist**  
  July 13 – 17  
  Summoning all scientists! Join us in the lab as we experiment with colorful concoctions, messy mixes, and cool chemical reactions. Launch balloon rockets, create slime, brew a batch of bubbles and more during this action-packed week!

- **secret life of pets**  
  July 20 – 24  
  Animal lovers rejoice! Learn all about dogs, cats, fish, and create your own pet rock or two. We will read, create crafts, play games, and share stories about pets. We may even have a surprise guest or two!

- **toys by you**  
  July 27 – 31  
  It’s time to take toy making into your own hands! Forget the toys you play with day in and day out. Use your imagination and a variety of materials to bring toys to life that you have dreamed up, and design them on your own.

afternoon camps  
**(12:30 p.m. – 3:30 p.m.)**

- **oh, the thinks we can think**  
  June 8 – 12  
  Get turned upside down in the wonderful world of Dr. Seuss. From Oobleck to truffula trees to the antics of Cat in the Hat, the campers will explore literacy, while experiencing a variety of wacky, fun activities that will be sure to spark their imaginations!

- **crackle, pop, fizz**  
  June 15 – 19  
  We’ll experiment with basic kitchen ingredients as we learn about solids, liquids, reactions and more! This science camp is sure to WOW you!

- **art in nature**  
  June 22 – 26  
  Rain or shine, this art camp will bring nature’s beauty to life through messy but fun projects, including painting, bubble foam, shadow art, and more. If you love nature and art, this camp is for you!

- **get into the rhythm**  
  June 29 – July 3  
  When a song comes on and all you want to do is dance there is a reason! Whether clapping your hands or tapping your foot, the rhythm of music can make you move. What makes a fast song fast? What does a slow beat feel like? Listen, learn and play along to hear how much rhythm rocks our world.

- **super heroes camp**  
  July 6 – 10  
  Study the science behind your favorite superheroes! How do they fly? How does The Hulk change colors? What exactly is Spidey’s web made of? Science exploration, games, and super hero training quests are included in this action-filled week!

- **we are in a camp**  
  July 13 – 17  
  Piggle! I think students are joining our camp! Join Elephant and Piggie, Pigeon, and so many more of our favorite Mo Willems characters as we spend the week reading books, making crafts, and doing themed activities! There may even be a cookie or two to enjoy!

- **culinary creations**  
  July 20 – 24  
  Join us in the kitchen to learn about kitchen safety, food preparation, and whip up some of your favorite recipes in this tasty class. We’ll even get a chance to cook with veggies from Summit’s own garden. Bon Appetit!

- **knights & princesses**  
  July 27 – 31  
  Let’s go on a quest to find some FUN! Spend the week exploring the world of kings, queens, and jesters. Try juggling, performing magic, or telling jokes in front of the king. Enjoy a masquerade ball and learn some fun dance moves!

- **AM Extended Day Care** 7:15-8:30 a.m.: $30.00/week
- **PM Extended Day Care** 3:30-5:30 p.m.: $50.00/week
- **AM & PM Extended Day Care** 7:15-8:30 a.m. & 3:30-5:30 p.m.: $75/week
morning camps  
(8:30 a.m. – 11:30 a.m.)

- **programming from scratch**
  - June 8 – 12
  - Learn the basics of programming using Scratch, an easy-to-use, building block style coding platform. Students will animate cartoon characters, play music, and tell stories using key constructs of programming like conditional logic, loops, and user input. This camp is ideal for kids new to programming.

- **who done it? (clue!)**
  - June 15 – 19
  - There has been a crime and you have been asked to solve it! Where do you start? Did anyone see anything suspicious? Using a wide array of problem-solving skills, do you and your classmates have what it takes to discover *Who Done It?*

- **art masters**
  - June 22 – 26
  - This creative class is perfect for art lovers! Draw, paint, and sculpt every day as we tackle new projects. Explore the basic techniques of art while enhancing creativity and self-expression. We will end our week with an art gallery walk!

- **storytelling**
  - June 29 – July 3
  - Do you remember hearing about when your parents had to walk to school uphill both ways in snow 15’ high? What about that fish your uncle caught that keeps getting longer and longer each time he talks about it?! Storytelling has always been part of the human experience. Discover the art of telling a story in this exciting class.

- **coding fundamentals**
  - July 6 – 10
  - Build your coding, problem-solving, and creativity skills through engaging and hands-on activities! This camp is great for both beginners and students with some coding experience.

- **engineer your world**
  - July 13 – 17
  - Can you walk on a dozen eggs without breaking them? Can you build a tower that can withstand a real earthquake? Students will learn the answers to these and many other questions through hands-on activities that provide them an opportunity to learn about how engineering has shaped their world.

- **video game coders**
  - July 20 – 24
  - Discover your inner video game coder during this hands-on class. We will utilize MIT’s Scratch program as we learn basic coding skills and combine commands to program our own characters and games!

- **get into the rhythm**
  - July 27 – 31
  - When a song comes on and all you want to do is dance there is a reason! Whether clapping your hands or tapping your foot, the rhythm of music can make you move. What makes a fast song fast? What does a slow beat feel like? Listen, learn, and play along to hear how much rhythm rocks our world.

afternoon camps  
(12:30 p.m. – 3:30 p.m.)

- **art masters**
  - June 8 – 12
  - This creative class is perfect for art lovers! Draw, paint, and sculpt every day as we tackle new projects. Explore the basic techniques of art while enhancing creativity and self-expression. We will end our week with an art gallery walk!

- **galaxy camp**
  - June 15 – 19
  - 3, 2, 1 blast off to a galaxy far, far away to learn about Earth and the amazing solar system. Discover all things galactic such as comets, planets, shooting stars, rockets and more. Learn about flight, the adventures of space travel, and participate in a rocket launch!

- **mind over matter**
  - June 22 – 26
  - What’s the matter? We’ll find out during this hands-on, science-based camp. Experiment with solids, liquids, and gases as you learn more about the various states of matter. Activities will include homemade ice cream, dry ice fun, insta-snow, slime, and more!

- **decorative writing**
  - June 29 – July 3
  - Has anyone ever told you that you have beautiful handwriting? Or do you have to read your chicken scratches to them because only you know what you wrote? Decorative handwriting is for everyone! Learn the basics of building a letter and then go crazy! Special pens, markers and brushes can help make every word look like a work of art!

- **wacky water**
  - July 6 – 10
  - Ride the wave into this fun class! We’ll explore water in its various forms, compare dry ice and cubes, brew up some bubbles, study surface tension, and more!

- **color your world**
  - July 13 – 17
  - Are you a budding artist? Love colors, shapes, patterns, and all things art? Join us in the studio for a week of painting, drawing, sculpting and more!

- **toys by you**
  - July 20 – 24
  - It’s time to take toy making into your own hands! Forget the toys you play with day in and day out. Use your imagination and a variety of materials to bring toys to life that you have dreamed up, and design them on your own.

- **comic book design**
  - July 27 – 31
  - Use your imagination and the inspiration from your favorite comic books to create your own! Develop heroes and villains as you design unique characters and learn about facial dynamics, body construction, and the art of exaggeration.

### morning camps (8:30 a.m. – 11:30 a.m.)

- **ukulele 101 ($125 + $35 materials fee)**
  - June 8 – 12
  - This Ukulele for Beginners course will provide the perfect introduction to simple melody plucking and chord accompaniment to familiar tunes! Not only will we learn to play the ukulele, you will also BUILD your own Ukulele to take home with you at the end of the week. This class is not only for those with musical talent, but also for those who are looking for the right outlet for their innate musical skills that are still in the beginning stages.

- **magic, myth, & creepy things**
  - June 15 – 19
  - Can you make a coin disappear? Spotted Sasquatch?! What is the most creepy thing you have ever seen?! Venture into the realm of the unknown with this fascinating class. Learn how to get rid of the monster under bed and keep it out!

- **lego® robotics**
  - June 22 – 26
  - Design, build, and program LEGO® robots to accomplish challenges such as navigating a maze autonomously, retrieving objects, and using sensors to determine a path or obstacles.

- **get into the rhythm**
  - June 29 – July 3
  - When a song comes on and all you want to do is dance there is a reason! Whether clapping your hands or tapping your foot, the rhythm of music can make you move. What makes a fast song fast? What does a slow beat feel like? Listen, learn and play along to hear how much rhythm rocks our world.

- **myth busters**
  - July 6 – 10
  - What happens when you mix Mentos and Diet Coke? Can a needle float on water? Can you unlock your car in an emergency with a car remote signal through your cell phone? Let’s find out! Discover, experiment, and maybe get wet! Based on the hit TV show, MythBusters, students will use the scientific method to test the validity of modern legends, rumors, and myths.

- **fortnite camp**
  - July 13 – 17
  - Join us for a week of fun and innovation! Engage in a variety of areas – engineering, survival, and community building – all in relation to Fortnite, and without actually picking up a controller. Get in touch with your curiosity and creativity while you explore your interest in this popular game!

- **sculpture & mosaics**
  - July 20 – 24
  - Students will learn basic mosaic design and application techniques using glass marbles and other found objects to create unique and colorful pieces. Students will also get the chance to make their ideas come to life by creating sculptures with clay, wire, mixed media, and other recycled materials.

- **lego® robotics**
  - July 27 – 31
  - Design, build, and program LEGO® robots to accomplish challenges such as navigating a maze autonomously, retrieving objects, and using sensors to determine a path or obstacles.

### afternoon camps (12:30 p.m. – 3:30 p.m.)

- **slime camp**
  - June 8 – 12
  - Ooey-gooey, squelchy, bumpy, lumpy SLIME! Enjoy the ULTIMATE slime experience exploring the science and creativity of creating AND playing with slime.

- **wizard science**
  - June 15 – 19
  - Cast spells alongside your favorite Harry Potter characters at our very own Hogwarts class! Join the wizarding fun as we perform magical science experiments and create literacy crafts. We will see you on Platform 9 3/4!

- **the great summit bake-off**
  - June 22 – 26
  - For five fun-filled days, young bakers will experience a world of hands-on baking with their peers. Learn how to read and follow a recipe, measure and mix, and the importance of kitchen safety. Best of all, we’ll have a blast creating, decorating, and tasting sweet treats!

- **musical theatre**
  - June 29 – July 3
  - What if your daily life had a soundtrack? Have you ever tried singing a sentence to a friend? There are many ways that music and acting overlap. In this fun filled class we will explore examples from the big screen!

- **sculpture & mosaics**
  - July 6 – 10
  - Students will learn basic mosaic design and application techniques using glass marbles and other found objects to create unique and colorful pieces. Students will also get the chance to make their ideas come to life by creating sculptures with clay, wire, mixed media, and other recycled materials.

- **escape room**
  - July 13 – 17
  - Join fellow escape artists for a week of decoding secret messages, finding clues, solving riddles, and putting your mind to the ultimate test to escape! If you love escape room challenges, this class is for you!

- **dragons, unicorns, mystical creatures**
  - July 20 – 24
  - Mythical creatures come to life as you explore multiple mediums to create masterpieces that represent what you believe these creatures would actually look like if they existed today.

- **the voice**
  - July 27 – 31
  - Do you have what it takes to sing your favorite song your way? Do you know what singing style or range you are comfortable with? Why do some people sing so high, while others so low? Your voice is an instrument you have with you at all times! Learn how to use it and celebrate the voice that is all your own!
